INTERIOR PLACEMENTS

Interior Placements was established in 2000 and is a weekly email newsletter that goes out to the above database. It offers employment positions, premises and products available or wanted. My database stands at over 6000 email addresses. These email addresses belong to persons directly related to the Interior Design and Decorating Industry in South Africa and comprise of Architects, Interior Architects, Interior Designers, Interior Decorators and Suppliers. The list is broken down into regions but not into individual categories. The list fluctuates on a weekly basis due to persons subscribing or unsubscribing as well as emails that bounce for whatever reason. There are several options for advertising in the newsletter.
