RELEVANT EXPERIENCE

1. SITE OBSERVATIONS (January 2024 - November 2024)

- Experience in Construction Site Observation and Documentation:
- Conducted weekly on-site visits to a commercial property construction site, actively observing and documenting construction progress.
- Identified and documented various role-players and their responsibilities on site, including contractors and specialists.
- Recorded detailed observations of construction aspects, sequencing of installations, and reasons behind construction sequences.

2. JOB SHADOWING (July 2024)

- Researched and applied key industry concepts in a real-world design environment.
- Participated in design-related activities, observed workflows, and engaged with team members to understand discipline-specific processes.
- Maintained a detailed visual diary and journal documenting observations, sketches, and reflections on the company's operations.

3. FREELANCING AT A COMPANY (September 2024)

- Designed and developed custom kitchen and built-in cupboard solutions for residential clients.
- Created detailed sketches, technical drawings, and 3D renders to visually communicate design concepts.
- Collaborated closely with clients to understand their requirements and preferences, delivering tailored design solutions.
- Managed the design process from concept to execution, ensuring high-quality outcomes and client satisfaction.

EXPERTISE

- Space planning
- Color theory and coordination
- Material selection
- Furniture and fixture specification
- 3D visualization
- Project management
- Sustainability and environmental Design
- Cultural and Historical Context
- Presentation skills
- Problem solving
- Attention to detail
